Vaibhavi Fadke

Panjim, Goa, India fadkevaibhavi30@gmail.com 8669325224 in/vaibhavi-fadke

SUMMARY

Computer Engineering graduate with hands-on experience across backend, web, and ML actively contributing to production code since final year.

EXPERIENCE

Backend Developer Intern

Spintly **February 2026 - Present, Fatorda, Goa**

- Developed REST APIs in Go (Golang) for user data retrieval and message publishing via Apache Kafka within a microservices architecture, with Swagger documentation and error handling.
- Implemented RSA-256 asymmetric encryption for secure key generation, token creation, and user authentication in distributed services.

Junior Software Developer

Open Destinations **June 2025 - December 2025, Panaji, Goa**

- Completed structured training on ASP.NET, C#, Angular, AngularJS, jQuery, LINQ, SSMS, and REST APIs before transitioning to live project work.
- Resolved currency mismatch issue where displayed currency differed from the logged-in agent's currency, ensuring accurate transaction data across user sessions.
- Fixed critical bugs (e.g., payment failure page redirections and UI/flow issues) by handling Jira tickets and change requests, while managing code changes and version tracking using SVN and Jira.

Machine Translation Intern

Vidyaapati (Goa University) **July 2024 - August 2024, Panaji, Goa**

- Implemented and evaluated an attention-based Konkani–Hindi healthcare domain machine translation model using OpenNMT on Vidyaapati data, analyzing multiple configurations to optimize low-resource translation performance and improve BLEU score from 5.48 to 10.89.

PROJECT

NexEvent - AI Driven Event Management System

- Developed an AI-driven event management web platform using Python, Flask, HTML, CSS, JavaScript, and Supabase, enabling vendor booking and automated theme generation based on colour, weather, and season inputs, integrating a hybrid recommendation model and LLaMA-based image generation for event visualisation.
- Implemented BiLSTM-based sentiment analysis using Python and Keras for user feedback classification (90% accuracy) and built automated PDF report generation summarising event attendance, sentiment breakdown, and user reviews.

EDUCATION

Bachelor of Engineering in Computer Engineering

Padre Conceicao College of Engineering • Goa • 2025

12th

Vasantrao Dempo Higher Secondary School Of Science, Commerce and Arts • Goa • 2021

10th

Dr. K.B. Hedgewar High School • Goa • 2019

CERTIFICATIONS

Programming for Everybody (Getting Started with Python)

University of Michigan (Coursera) • 2026

Cyber Security and Privacy

NPTEL (IIT Madras) • 2024

SKILLS

Languages, Web & Frameworks: C, C++, C#, Go, Python, JavaScript, HTML, CSS, Angular/AngularJS, jQuery, LINQ, .NET, OpenNMT

Databases, APIs, Security & Tools: MySQL, SQL Server (SSMS), REST APIs, Swagger, Kafka, RSA-256, Asymmetric Encryption, Token-Based Auth, Visual Studio, VS Code, Jira, SVN
